CONSISTENT CUT AND LONG LIFE

PERFORATED FOR CLEAN, EASY TEARING

Fibratex Scuff Pads and Rolls

Features

- Non-woven nylon, low density product impregnated with abrasive grain
- Products are coated evenly with abrasive grain

Benefits

- Excellent conformability to irregular surfaces
- Consistent coverage of grain throughout pad

Maroon – Primer Prep Scuff Pad

- Scuff and prep E-coated panels fast
- Leaves very consistent scratch without leveling
- Robust enough to be used under hoods and in doorjamb without tearing
- Provides excellent primer prep adhesion
- Perforated for clean, easy tearing

Gray – Color Prep Scuff Pad

- Use for prep of color coat areas and blends
- Can be used dry or wet with Scuff Gel
- Provides excellent color prep adhesion
- Perforated for clean, easy tearing

Gold – Blend Prep Scuff Pad

NEW!

- Use for blend areas
- Ideal for pearls and metallics
- Provides excellent color prep adhesion
- Perforated for clean, easy tearing

White – Overspray Cleaning Pad

- Use to clean overspray without scratching chrome, paint or glass
- Non abrasive

Scuff Pads

The Fibratex line of non-woven scuff pads provide a fast, consistent cut and can be used wet or dry. Made of a high loft nylon web design, Fibratex scuff pads can be re-used and last longer than competitive pads.

Scuff Rolls

Tear the rolls to the exact length needed to get the job done quickly and correctly. Perforations are every 6" which yields 30 pads per roll.

Thin-Flex Pads

NEW!

Perforated pads are folded so they dispense and tear from the protective shrink wrap. Strong, incredibly flexible, and ideal for getting into tight spaces.

Scuff Gel

Formulated for consistent abrasion for outstanding paint adhesion. Use with Fibratex gray pad or roll. Cleans, degreases and abrades in one step. Rinses off easily and completely. Waterbased formula, very low in V.O.C.
