# FIBRATEx SCUFF PADS, DISCS AND ROLLS

Flexible / Tear-resistant / Great on contours and edges / Use wet or dry

FIBRATEx

FEATURES	BENEFITS
• Non-woven nylon, low density product impregnated with abrasive grain	• Excellent conformability to irregular surfaces
• Products are coated evenly with abrasive grain	• Consistent coverage of grain throughout pad
• Perforated scuff pads	• Clean, easy tearing

## Scuff Pads

The Fibratex line of non-woven scuff pads provide a fast, consistent cut and can be used wet or dry. Made of a high loft nylon web design, Fibratex scuff pads can be re-used and last longer than competitive pads.

## Scuff Discs

For use on D/A with a hook and loop back-up pad for faster scuffing.

## Scuff Rolls

Tear the rolls to the exact length needed to get the job done quickly and correctly. Perforations are every 6" which yields 30 pads per roll.

## Scuff Gel

Formulated for consistent abrasion for outstanding paint adhesion. Use with Fibratex gray pad or roll. Cleans, degreases and abrades in one step. Rinses off easily and completely. Waterbased formula, very low in V.O.C.
