PREMIER RED CUT-OFF WHEELS

Advanced abrasive grain / Fiberglass reinforced

PREMIER RED CUT-OFF WHEELS

Make Fast Work of Any Job!

FAST CUT DESIGN

Carbo Premier Red cut-off wheels are a unique blend of high performance abrasives, the ultimate combination for faster and cooler cutting action. Design improvements to the bond and abrasive provide a faster, cooler cut with substantially more life. This means you can get the job done faster and spend less time changing wheels. A premium wheel that gives you Premier performance.

FEATURES	BENEFITS
<ul style="list-style-type: none"> • New XG ceramic grain 	<ul style="list-style-type: none"> • Provides the fastest cut rate on the market – up to 3 times the speed of a conventional wheel
<ul style="list-style-type: none"> • Blended with a tougher zirconia alumina grain combination 	<ul style="list-style-type: none"> • A longer lasting grain that increases the life of the wheel without affecting its cut rate
<ul style="list-style-type: none"> • Highly advanced bond system 	<ul style="list-style-type: none"> • Optimizes cut rate and life of the wheel • Allows for a free cutting action without binding

PREMIER RED CUT-OFF WHEEL AVAILABILITY

055395-	WHEEL SIZE	GRADING	MAX. RPM	STD. PKG.	STD. CASE
03861	3" x 1/32" x 3/8"	MZ46-T	25,465	5	50
03863	3" x 1/16" x 3/8"	MZ36-T	25,465	5	50
04270	3" x 3/16" x 3/8"	MZ36-T	25,465	5	50

Note: Never exceed the wheel rpm and only use tools with a guard for safety.

NEW!

CLAM SHELL PACKAGING

The 1/32" and 1/16" thick wheels now come in durable plastic clam shell package to keep wheels organized and protected in the shop. Hang them on the wall and just grab one when you need it. Carbo is at hand to help get the job done.

1/32" Blade

- Thinnest, fastest cutting blade made
- Much cooler cut
- Less distortion allows for a tighter fit
- Requires less welding
- Excellent for quarter panels

1/16" Blade

- Great for demanding applications
- Cuts bolts, rods and frame rails
- Exceptional, extended worklife

3/16" Blade

- Makes quick work of spot welds
- Thickness improves control when moving wheel side-to-side
- Longest lasting blade available
